Experience

Dr Freddy Jackson Brown is a British Psychological Society chartered clinical psychologist. He graduated from the Southampton University doctoral clinical psychology training programme in 1996 and for the last 10 years has been employed by North Bristol NHS Trust to deliver mental health services to children and their families. He is the lead psychologist for disabled children in North Bristol Trust and contributes to service development and strategy for disabled children.

Clinically he has experience of a range of clinical areas, such as mental health, disability (including autistic spectrum disorders), drug and alcohol, health issues and capacity. He has a particular interest in challenging behaviour and leads a small team of four psychologists supporting disabled children at risk of school exclusion. He is also an Acceptance and Commitment Therapy practitioner.

Professionally he has written widely on clinical, conceptual and philosophical issues and has published quantitative and qualitative research papers in nationally and

internationally peer reviewed journals. He provides teaching on disability in infancy and childhood and child and adolescent mental health on the Bristol Doctoral Clinical Psychology training course.

Dr Jackson Brown has undertaken legal instructions since 1999, contributing expert witness reports for civil proceedings. He is qualified to use, and has experience with, a range of psychological and clinical procedures (such as interview, observational and psychometrics) to assess children needs, profiles and family functioning.

Professional Memberships

- British Psychological Society (BPS)
- Division of Clinical Psychology (DCP)
- Association of Behavior Analysis (ABA)
- Associate Fellow of Association for Contextual Behavioral Science (ACBS)
